

REMARKS

Summary of the Office Action and Applicants' Response

Claims 1, 8, 46-67, 69-76, 78, and 80-123 were pending in the above-identified patent application.

The Examiner has found that there are allegedly three distinct inventions claimed in this patent application and has required restriction to one of those inventions. In particular, the Examiner has required restriction to one of the following three claim groups:

- I. Claims 1 and 8, “drawn to a method for billing a buyer for telecommunication service provided by a first provider of a plurality of telecommunication providers” (Office Action, p. 2).
- II. Claims 46-67, 69-71, 82-103, 118-121, and 123, “drawn to a method for creating/conducting a bidding process among telecommunication providers in which a moderating computer collects bids from at least two telecommunication providers” (Office Action, p. 2).
- III. Claims 72-76,¹ 78, 80-81, 104-117, and 122, “drawn to a bidding moderator for enabling designation of at least one provider of a plurality of telecommunication providers for the provision of telecommunication service” (Office Action, p. 2).

Accordingly, applicants hereby elect, without traverse, the claims of Group II (claims 46-67, 69-71, 82-103, 118-121, and 123). An early and favorable action is respectfully requested.
